

FREE LECTURE SERIES
with Dr. Mark Hanks
of Kindred Spirits Veterinary Hospital

May 16th - Vaccines: Both Sides of the Story

Vaccines are a hot topic over the past decade. But who is right? Explore both sides of the argument for and against vaccines in your pet

June 20th - Losing a Pet

Grief over a pet's passing is overwhelming for many. In our society some family and friends get it, and some don't. Extra roundtable discussion for the group's experience with pet loss. The doctor comes with practical tips for honoring your very special friend.

July 18th - Virtual Surgery

Spay and neuter.

What exactly happened to my pet anyway? Besides being a great idea to decrease our pet overpopulation problem and extend your pet's life, modern anesthetics and pain relieving techniques make this routine procedure a breeze for most pets.

Space is limited.
